WATERPROOFING SOLUTIONS FOR BASEMENTS, WET ROOMS, AND ROOFS

MAKE IT PRO

WATERPROOFING SOLUTIONS FOR BASEMENTS, WET ROOMS, AND ROOFS

ROOFS

THE PROBLEMS:

- How to repair the roof?
- How to protect gutters, details, and joints?
- How to waterproof the roof?
- How to remove lichen and algae from the roof?

WET ROOMS

THE PROBLEMS:

- How to seal the sanitary elements?
- How to waterproof the walls and the floors under my tiles?
- How to bond the tiles?
- How to grout the tiles?

BASEMENTS

THE PROBLEMS:

- How to stop a leak in the wall?
- How to protect and waterproof concrete structures?
- How to protect the basement from ground water?
- How to treat the saltpetre on walls?

Problem	Solution	Page
How to stop a leak in the wall?	Sika MonoTop®-108 Water Plug	4
How to protect and waterproof concrete structures?	Sikalastic®-1K	5
How to protect the basement from ground water?	Sika® Igoflex®-101	6
How to treat the saltpetre on walls?	Sikagard®-905 W	7
How to seal the sanitary elements?	Sikasil® C	8
How to waterproof the walls and the floors under my tiles?	Sikalastic®-220 W	9
How to bond the tiles?	SikaCeram®-255 StarFlex	10
How to grout the tiles?	SikaCeram® CleanGrout	11

SOLUTIONS

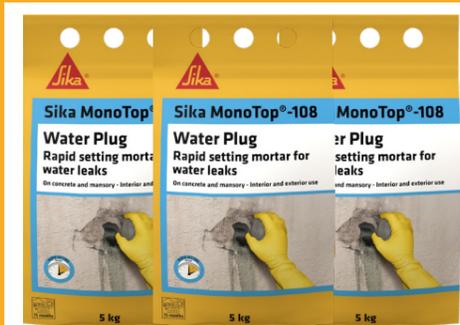

HOW TO STOP A LEAK IN THE WALL?

HOW TO PROTECT AND WATERPROOF CONCRETE STRUCTURES?

SIKA PRO SOLUTION

Color: Grey powder
Packaging: 5 kg bag

SIKA MONOTOP®-108 WATER PLUG

Rapid-setting cement mortar for plugging water leaks in concrete and masonry walls.

- For cracks, gravel niches and casting joints
- Instant plugging of drained water outlets
- Quick setting: ~60–80 seconds (at 20 °C)
- Also suitable for wet rooms

SIKA PRO SOLUTION

Color: Light grey
Packaging: 20 kg bag

SIKALASTIC®-1K

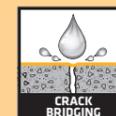

1-component, crack-bridging, fibre-reinforced mortar, based on cement modified with special alkali-resistant polymers, suitable for application by brush or trowel.

- Suitable for concrete structures such as basements and tanks
- Waterproofing beneath tiling of terraces, wet rooms, and swimming pools
- Very good adhesion on concrete, cement mortars, stone, masonry

BASEMENTS

HOW TO PROTECT THE BASEMENT FROM GROUND WATER?

SOLUTIONS

HOW TO TREAT THE SALTPETRE ON WALLS?

SIKA PRO SOLUTION →

SIKA® IGOLFLEX®-101

1-component, solvent-free coating based on a polymer modified bitumen emulsion filled with polystyrene.

- Suitable for all types of underground and above-ground concrete structures
- Protect against ingress of water and moisture in a thick film coating
- Solvent free

Color: Black
Packaging: 10 litres and 32 litres pail

SIKA PRO SOLUTION →

SIKAGARD®-905 W

Ready to use, water based resin damp-proofing and hardening impregnation, and dries clear.

- Forms a physical barrier which prevents mold and biological growth
- Saltpetre treatment
- Can be over-coated with paint or wall paper

Color: Milky white liquid
Packaging: 2 litres and 5 litres pail

SOLUTIONS

HOW TO SEAL THE SANITARY ELEMENTS?

HOW TO WATERPROOF THE WALLS AND THE FLOORS UNDER THE TILES?

SIKA PRO SOLUTION

SIKASIL® C

1-part, neutral curing, non-corrosive multi purpose elastic joint sealant for sealing many types of joint configurations.

- No primer required for most substrates and applications
- Long term fungus and mildew resistance
- High elasticity and flexibility

Color: Available through the local country
Packaging: 300 ml cartridge

SIKA PRO SOLUTION

SIKALASTIC®-220 W

Ready to apply, 1-part, water based resin, liquid applied membrane for wet rooms.

- Provides a fully bonded waterproof finish ready for the application of tiles
- Fast drying
- Ideal for both trowel and roller application

Color: Blue-grey
Packaging: 7 kg and 16 kg pail

HOW TO BOND THE TILES?

SOLUTIONS

HOW TO GROUT THE TILES?

SIKA PRO SOLUTION

SIKACERAM®-255 STARFLEX

Cement-based, improved, deformable, low dust, 1-part tile adhesive.

- All kinds of ceramic tiles
- Grès porcelain in large size and in thin slabs
- Interior/Exterior

Color: Grey powder
Packaging: 25 kg bag

SIKA PRO SOLUTION

SIKACERAM® CLEANGROUT

Cementitious floor / wall tile grout for use in joints from 1-8 mm in width.

- Floor and wall application
- Interior/Exterior
- UV Resistant

Color: Available through the local country
Packaging: 2 kg and 5 kg bags

ROOFS

HOW TO REPAIR THE ROOF?

SOLUTIONS

HOW TO PROTECT GUTTERS, DETAILS AND JOINTS?

SIKA PRO SOLUTION

SIKAFLEX®-11 FC+

1-component, solvent-free joint sealant and multi-purpose adhesive with high non-sag consistency.

- 2-in-1 product: Sealing and Bonding
- Bonds to most construction materials
- Interior/Exterior

Color: Available through the local country
Packaging: 300 ml and 600 ml cartridge

SIKA PRO SOLUTION

SIKA® MULTISEAL

Self-adhesive, rubber modified bituminous sealing tape laminated with an aluminium foil on the upper side.

- Good adhesion to many substrates
- Self-adhering
- Can be overpainted

Color: Matt grey, terracotta brown
Packaging: Available through the local country

ROOFS

HOW TO WATERPROOF THE ROOF?

SOLUTIONS

HOW TO REMOVE LICHEN AND ALGAE FROM THE ROOF?

SIKA PRO SOLUTION

SIKALASTIC®-560

Cold-applied, one-component waterborne liquid applied waterproofing membrane, highly elastic and UV resistant.

- Highly elastic and crack-bridging
- Low VOC emitting water-based coating
- Water vapour permeable - allows the substrate to breathe

Color: Grey, terracotta, red and white (Energy Star)
Packaging: 20 kg plastic pails and metal pails

SIKA PRO SOLUTION

SIKAGARD®-715 W

Water based moss, lichen and algae removing solution.

- Compatible with most common building materials
- Does not create any discolouration or stain reaction on these materials
- Interior/Exterior

Color: Colorless, transparent
Packaging: 500 ml aerosol, 2 litres and 5 litres pail
