## Sikanol® -M

## Normal Setting Air Entraining / Mortar Plasticizer

Product Description	Sikanol® -M is a liquid ready to use plasticizer that increases the cohesion and workability of cement: sand masonry mortars, and renders.  Complies with BS 4887.
Uses	Sikanol <sup>®</sup> -M is added to the mixing water prior to its addition to the cement: sand mix to provide high quality mortar for:-
	■ Brickwork and blockwork.
	■ Cement sand renders and plasters.
	■ Lime re-placer in plastering & bricklaying mortar.
Advantages	■ Sikanol® -M reduces the surface tension in mortars allowing the mixing water to become more effective.
	Under normal conditions a substantial increase in the cement: sand ratio can be achieved without loss of cohesion.
	■ Easier working with less wastage.
	■ Increased frost resistance.
	■ Higher strengths.
	■ Better adhesion.
Approval / Standards	Sikanol <sup>®</sup> -M has been tested as per SCAQMD Rule 1168.
	Result: VOC 0 g/l
Technical Data	
Form	Liquid.
Colour	Brown.
Specific density	1.01+ 0.005
Packaging	5 kg and 20 kg drums
	200 kg drums
Storage	Store free from frost, away from direct sun light.
Shelf life	12 months from date of production if stored properly in original unopened packing.
Application	
Consumption	0.1 - 0.2% by weight of cement.
Dispensing	Add Sikanol <sup>®</sup> -M to the clean mixing water prior to its addition to the dry mixed cement: sand.
Important	When mixing by hand, increased dosage may be necessary. For extremely high strength masonry mortar, continuous checking of the air content is advisable.

Safety Instructions	
Ecology	Do not dispose of into water or soil but according to local regulations.
Transport	Non -hazardous.
Safety precautions	Accidental splashes to the skin must be washed off with water and soap.
	Accidental splashes to the eyes or mucous membrane must be rinsed with clean warm water. Seek medical attention without delay.
Toxicity	Non-toxic under the relevant - health and safety codes.
