

EUI EGYPT UNIVERSITY OF INFORMATICS

ROOFING & WATERPROOFING

Sika@Work

BUILDING TRUST

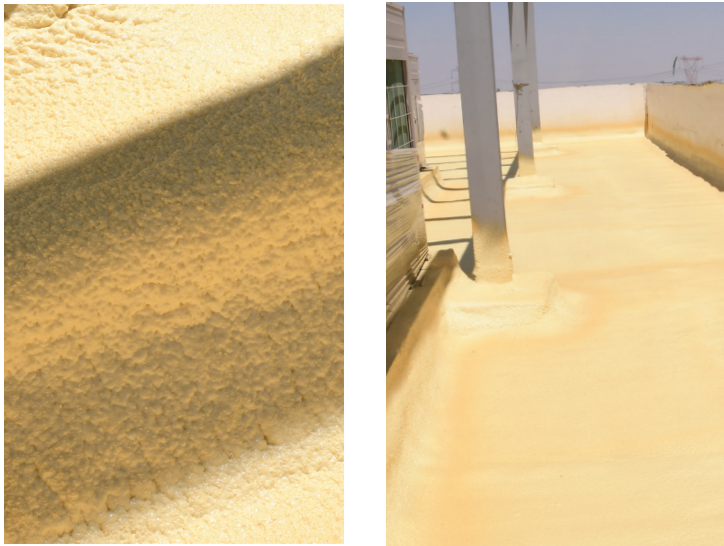

Project Description

- At the heart of Knowledge City in the New Administrative Capital, the Ministry of Communications and Information Technology, in collaboration with the Ministry of Higher Education and Scientific Research, established Egypt University of Informatics (EUI) with the goal of becoming a leading institution specialized in the fields of Communications and Information Technology (ICT) and related areas across the Middle East and Africa.

The university comprises four faculties: the Faculty of Computer and Information Sciences, the Faculty of Engineering, the Faculty of Informatics Management Sciences and the Faculty of Arts and Digital Design.

Project facts	
Project name	EUI Egypt University of Informatics
Location	New Capital , Egypt
Year	2026
Application	Fully Bonded Waterproofing and Thermal Insulation System for Roofing
Products	- Sikatherm FOAM 55 RD1 - Sika® Raintite

Project Requirements

- An effective and highly durable waterproofing and thermal insulation system that is easy to install, even around complex roof details, allowing for easy formation of fillets and seamless detailing around roof penetrations and upstands

Sika Solution:

- Sika is globally recognized as the worldwide market and technology leader for roofing solutions
- Sika Integrated Roofing System (Combo Roof) is a comprehensive system comprising of waterproofing, thermal insulation and finishing for the rooftop.
- The Integrated Roofing System (Combo Roof) forms a monolithic, seamless, joint free, economical, speedy waterproofing and high thermal insulated roof.
- Sikatherm FOAM 55 RD1 - Sika® Raintite

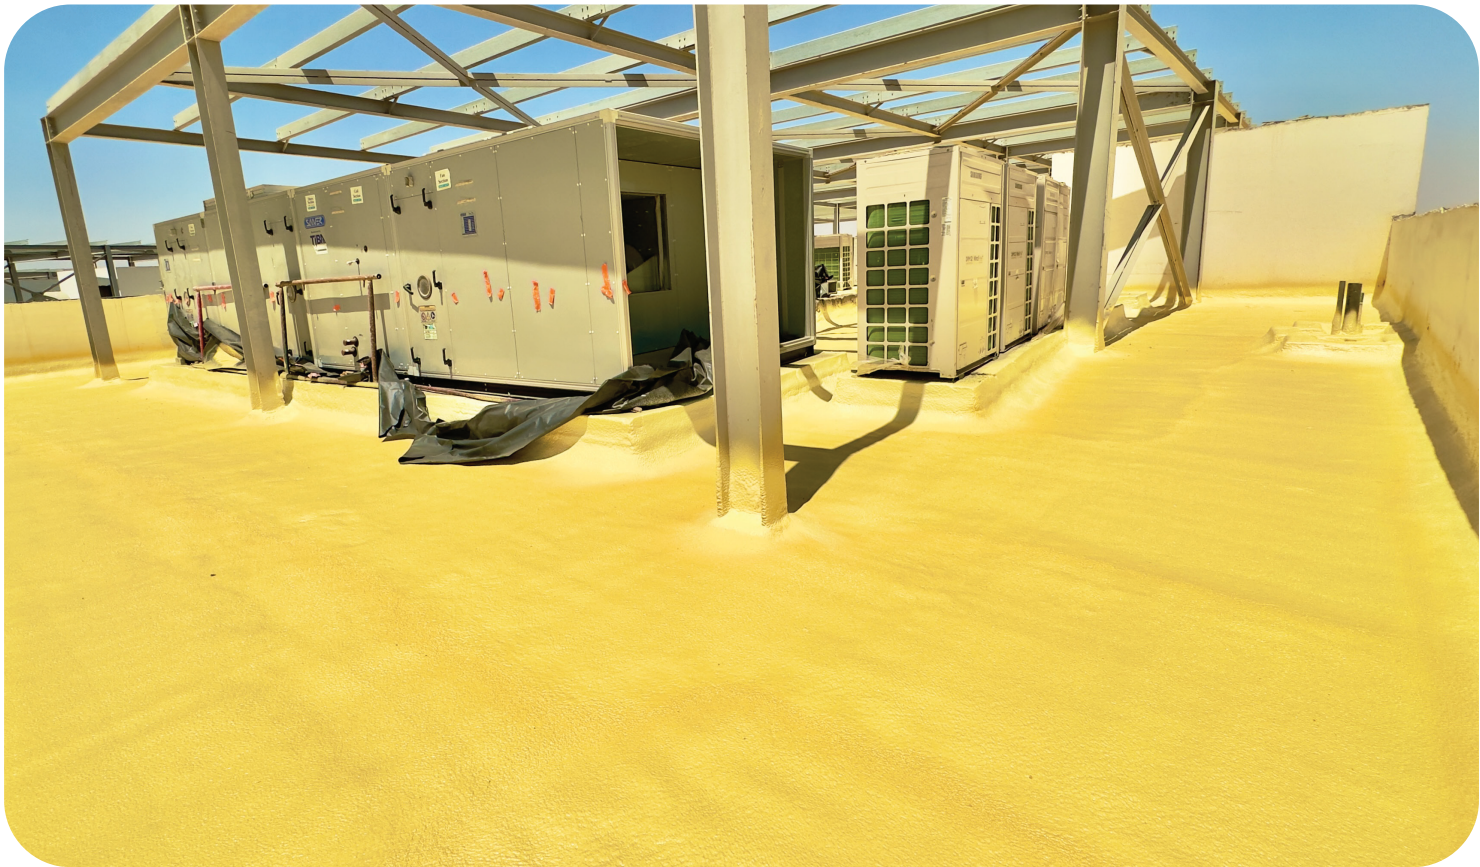

Why Sika:

- Sika delivers more than just a roofing system. As the global leader in roofing technology, Sika provides an integrated solution that combines superior waterproofing, thermal insulation, and durable roof protection in one seamless system. The Sika Combo Roof is engineered to maximize building performance, enhance energy efficiency, reduce maintenance costs, and provide long-term protection against water ingress and extreme weather conditions. With proven success in iconic projects worldwide, Sika is the trusted partner for sustainable, reliable, and high-performance roofing solutions.

Project participants

Main contractor	(Dar Al Alamia - Al Salam Company - Eid Sobhy Company - El Sharqia - Red Sea Company)
Applicator/ Contractor	ITC (Insulation Technology Company)
Owner	◦ Egyptian Ministry of Communications and Information Technology ◦ Ministry of Higher Education and Scientific Research
