

	June 20. TRADE NAME : SIKADUR – 42HS Part (C)			
ΓRA	ADE NAME : SIKA	DUR – 42HS Part (C)	Page 1/4	
1.1	Chemical		Ŭ	
	Natural sand or Gravel			
1.2	Characterization :			
	Form: Powder	Color : yellowish	Odor: No odor.	
2.	Physical Data and Safety Data			
	Boiling	No applicable		
	Density 20° C	~ 1.70 kg/l		
	Specific gravity	2.55 - 2.80		
	Vapor density in air	Not applicable		
	Vapor pressure(mm Hg			
	Evaporation rate(at 1 Atm, and 25EC 0			
	Solubility in Water	Negligible		
3.	Reactivity Data			
	Stability	Stable		
	Conditions To Avoid Avoid contact with incompatible materials.(see below)			
	Incompatibility (Materials to avoid)			
	Contact with powerful oxidizing agents such as fluorine, boron trifluoride, chlorine trifluoride,			
	manganese trifluoride, and oxygen difluoride. Silica dissolves in hydrofluoric acid producing a			
			hydrofluoric acid producing a	
	manganese trifluoride, and corrosive gas-silicon tetra		hydrofluoric acid producing a	
	corrosive gas-silicon tetra Hazardous decomposition	fluoride. on products		
	corrosive gas-silicon tetra Hazardous decomposition Silica-containing respirab	fluoride. on products le dust particles may be generated by l		
	corrosive gas-silicon tetra Hazardous decomposition	fluoride. on products		
1.	corrosive gas-silicon tetra Hazardous decomposition Silica-containing respirab Hazardous polymerize	fluoride. on products le dust particles may be generated by l Not known to polymerize.		
4.	corrosive gas-silicon tetra Hazardous decomposition Silica-containing respirable Hazardous polymerize Fire And Explosion Hazardous	fluoride. on products le dust particles may be generated by l Not known to polymerize. ard Data		
4.1	corrosive gas-silicon tetra Hazardous decomposition Silica-containing respirab Hazardous polymerize Fire And Explosion Haza Flash Point	fluoride. on products le dust particles may be generated by l Not known to polymerize. ard Data Not flammable		
4.1 4.2	corrosive gas-silicon tetra Hazardous decomposition Silica-containing respirable Hazardous polymerize Fire And Explosion Haze Flash Point Flammable Limits In Air	fluoride. on products le dust particles may be generated by l Not known to polymerize. ard Data Not flammable r Not flammable.		
4.1	corrosive gas-silicon tetra Hazardous decomposition Silica-containing respirab Hazardous polymerize Fire And Explosion Haza Flash Point Flammable Limits In Ai Personal Protective Equ	fluoride. on products le dust particles may be generated by l Not known to polymerize. ard Data Not flammable r Not flammable. ipment	nandling.	
4.1 4.2	corrosive gas-silicon tetra Hazardous decomposition Silica-containing respirab Hazardous polymerize Fire And Explosion Haza Flash Point Flammable Limits In Air Personal Protective Equ Respiratory protection:	fluoride. on products le dust particles may be generated by l Not known to polymerize. ard Data Not flammable r Not flammable. ipment required if used confined areas or if w	nandling.	
4.1 4.2	corrosive gas-silicon tetra Hazardous decomposition Silica-containing respirab Hazardous polymerize Fire And Explosion Haza Flash Point Flammable Limits In Ai Personal Protective Equ Respiratory protection: Eye Protection :	fluoride. on products le dust particles may be generated by l Not known to polymerize. ard Data Not flammable r Not flammable. ipment required if used confined areas or if y Tightly fitting protective goggles	ventilation is inadequate.	
4.1 4.2	corrosive gas-silicon tetra Hazardous decomposition Silica-containing respirab Hazardous polymerize Fire And Explosion Haza Flash Point Flammable Limits In Air Personal Protective Equ Respiratory protection:	fluoride. on products le dust particles may be generated by l Not known to polymerize. ard Data Not flammable r Not flammable. ipment required if used confined areas or if w	ventilation is inadequate.	
4.1 4.2	corrosive gas-silicon tetra Hazardous decomposition Silica-containing respirab Hazardous polymerize Fire And Explosion Haza Flash Point Flammable Limits In Ai Personal Protective Equ Respiratory protection: Eye Protection : Hand Protection: Industrial Hygiene	 fluoride. on products le dust particles may be generated by I Not known to polymerize. ard Data Not flammable r Not flammable. ipment required if used confined areas or if y Tightly fitting protective goggles Gloves. E.g. rubber , minimum thicknow 	ventilation is inadequate.	
4.1 4.2 5.	corrosive gas-silicon tetra Hazardous decomposition Silica-containing respirab Hazardous polymerize Fire And Explosion Haza Flash Point Flammable Limits In Ai Personal Protective Equ Respiratory protection: Eye Protection : Hand Protection: Industrial Hygiene	fluoride. on products le dust particles may be generated by l Not known to polymerize. ard Data Not flammable r Not flammable. ipment required if used confined areas or if y Tightly fitting protective goggles	ventilation is inadequate.	
4.1 4.2 5.	corrosive gas-silicon tetra Hazardous decomposition Silica-containing respirab Hazardous polymerize Fire And Explosion Haza Flash Point Flammable Limits In Ai Personal Protective Equ Respiratory protection: Eye Protection : Hand Protection: Industrial Hygiene	 fluoride. on products le dust particles may be generated by I Not known to polymerize. ard Data Not flammable r Not flammable. ipment required if used confined areas or if y Tightly fitting protective goggles Gloves. E.g. rubber , minimum thickning or smoking is not allowed. Remove 	ventilation is inadequate.	
4.1 4.2 5.	corrosive gas-silicon tetra Hazardous decomposition Silica-containing respirab Hazardous polymerize Fire And Explosion Haza Flash Point Flammable Limits In Ai Personal Protective Equ Respiratory protection: Eye Protection : Hand Protection: Industrial Hygiene During use. Eating, drinki clothing. Wash hands before	 fluoride. on products le dust particles may be generated by I Not known to polymerize. ard Data Not flammable r Not flammable. ipment required if used confined areas or if w Tightly fitting protective goggles Gloves. E.g. rubber , minimum thicknow one breaks and after work. 	ventilation is inadequate.	
4.1 4.2 5.	corrosive gas-silicon tetra Hazardous decomposition Silica-containing respirab Hazardous polymerize Fire And Explosion Haza Flash Point Flammable Limits In Ai Personal Protective Equ Respiratory protection: Eye Protection : Hand Protection: Industrial Hygiene During use. Eating, drinki	 fluoride. on products le dust particles may be generated by I Not known to polymerize. ard Data Not flammable r Not flammable. ipment required if used confined areas or if w Tightly fitting protective goggles Gloves. E.g. rubber , minimum thicknow one breaks and after work. 	ventilation is inadequate.	
 4.1 4.2 5. 5.1 5.2 	corrosive gas-silicon tetra Hazardous decomposition Silica-containing respirab Hazardous polymerize Fire And Explosion Haza Flash Point Flammable Limits In Ai Personal Protective Equ Respiratory protection: Eye Protection : Hand Protection : Hand Protection: Industrial Hygiene During use. Eating, drinki clothing. Wash hands before Protection Against Fire a N.A.	 fluoride. on products le dust particles may be generated by I Not known to polymerize. ard Data Not flammable r Not flammable. ipment required if used confined areas or if w Tightly fitting protective goggles Gloves. E.g. rubber , minimum thicknow one breaks and after work. 	ventilation is inadequate.	
4.1 4.2 5.	 corrosive gas-silicon tetra Hazardous decomposition Silica-containing respirabin Hazardous polymerize Fire And Explosion Hazardous polymerize Fire And Explosion Hazardous polymerize Fiash Point Flash Point Flash Point Flammable Limits In Air Personal Protective Equipation Respiratory protection: Eye Protection : Hand Protection: Undustrial Hygiene During use. Eating, drinkit clothing. Wash hands before Protection Against Fire and N.A. Disposal 	 fluoride. on products le dust particles may be generated by I Not known to polymerize. ard Data Not flammable r Not flammable. ipment required if used confined areas or if w Tightly fitting protective goggles Gloves. E.g. rubber , minimum thicknow one breaks and after work. 	ventilation is inadequate.	
 4.1 4.2 5. 5.1 5.2 	 corrosive gas-silicon tetra Hazardous decomposition Silica-containing respirabin Hazardous polymerize Fire And Explosion Hazardous polymerize Fire And Explosion Hazardous polymerize Fiash Point Flash Point Flash Point Flammable Limits In Air Personal Protective Equipation Respiratory protection: Eye Protection : Hand Protection: Undustrial Hygiene During use. Eating, drinkit clothing. Wash hands before Protection Against Fire and N.A. Disposal 	fluoride. on products le dust particles may be generated by I Not known to polymerize. ard Data Not flammable r Not flammable. ipment required if used confined areas or if w Tightly fitting protective goggles Gloves. E.g. rubber , minimum thicknow ing or smoking is not allowed. Remove ore breaks and after work. and Explosion	ventilation is inadequate. hess 1.4 mm e immediately contaminated	

TRADE NAME : SIKADUR - 42HS Part (C)

5.4 First Aid:

In case of contact with eyes. Rinse immediately under running water for 15 minutes with eyelids open. Seek medical advice.

Take off immediately all contaminated clothing. Wash contaminated skin with plenty of soap and water.

If swallowed, drink copious amounts of water without delay and seek medical advice. Do not induce vomiting.

6. Transport

Non-hazardous.

7. Toxicology

Non-toxic under relevant health and safety codes.

8. Ecology

Don't release into water supplies or the ground. In cured state the product is not known to cause an adverse environmental effect. Because of the high pH value the product can be injurious to aquatic life.

9. Stability and reactivity

Chemical stability

This material is thermally stable when stored and used as directed.

Conditions to avoid: Evaluated temperatures.

Incompatible Materials: No information available.

Hazardous decomposition products: Oxides of carbon, smoke and other toxic fumes.

Hazardous reactions: No information available.

10. Disposal considerations

Refer to State/Territory Land Waste Management Authority.

TRADE NAME : SIKADUR - 42HS Part (C)

Page 3/4

- **11. Regulatory information** Poisons Schedule (Aust): Not applicable.
- 12. Handling and storage Handling : Avoid skin and eye contact.

Storage:

Store in a cool, dry, well-ventilated place and out of direct sunlight. Store away from incompatible materials described in section 9. Keep containers closed when not in use – check regularly for leaks.

13. Exposure controls/personal protection

National occupational exposure limits: No value assigned for this specific material

Biological limit values:

As per the "National Model Regulations for the control of Workplace Hazardous Substances [NOHSC: 1005 (1994)]" the ingredients in this material do not have a Biological Limit Allocated.

Engineering measures:

Provide exhaust ventilation where operating conditions may create excessive work place vapor or mists.

Personal protection equipment:

OVERALLS, SAFETY SHOES, SAFETY GLASSES, GLOVES.

Wear overalls, safety glasses and impervious gloves.

14. Fire-fighting measures:

Specific hazards: Non – combustible material.

Specific protective precautions and equipment:

Fire fighters to wear self-contained breathing apparatus and suitable protective clothing if risk of exposure to vapor or products of combustion.

Page 4/4

- **15.** Hazard identification Hazard Category: Risk Phrase(s) : Safety Phrase(s):
- 16. Consumption/information on ingredients Chemical characterization: Natural sand or Gravel

Hazardous ingredients:
