# AL NASR AUTOMOTIVE

## Project Description:

- Al Nasr Automotive Manufacturing Company is making a bold return to the market with a focus on innovation, durability, and cutting-edge manufacturing. This revival is marked by a groundbreaking collaboration with Sika, leveraging advanced materials and solutions to create vehicles that meet modern market demands. Together, they are laying a strong foundation for Al Nasr's resurgence as a market leader.

## Project Requirements:

- Al Nasr required solutions that could align with its vision of producing high-quality vehicles. Modern automotive manufacturing demands innovative technologies to address challenges such as vehicle sealing, durability, and efficiency in production processes. To meet these needs, Al Nasr partnered with Sika to implement technologies designed for strength, precision, and sustainability.

## Sika Solution:

- Sika provides a wide range for adhesion, sealant, protection and sound damping; SikaFlex system includes:
  - SikaFlex 521 UV a weathering resistant STP adhesive sealant with a wide adhesion range and can be painted.
  - SikaFlex 263 a direct-glazing adhesive with good ageing and weathering resistance.
  - SikaFlex 252 an elastic adhesive for vehicle assembly bonding with the capability of vibration and sound damping.
  - SikaFlex 221 a multi-purpose adhesive sealant that has a low odor and non-corrosive property

## Products delivered:

SikaFlex 521  
SikaFlex 263  
SikaFlex 252  
SikaFlex 221

## Why Sika:

- Sika is an international leader in providing technical expertise and high-quality solutions to various industries, including the automotive sector. Their reputation for innovation and a customer-centric approach makes them an ideal partner for Al Nasr Automotive's ambitious comeback.
